

Yorkshire Superleague – Brief Notes for Organisers

Superleague events are no different from other regional or national events except that they have been designated as a Superleague event. As such, they should include a standard minimum set of courses and the **event details** should include details showing which class should do which course.

- Additional courses are permissible, such as Long Orange, but not required.
- In exceptional circumstances the course list can be varied. To do so, organisers must contact the league co-ordinator (superleague@yhoa.org.uk) to agree the course list and course mapping that should be used for the event details
- Points are calculated from the results posted on the British orienteering website, so no additional action is required.
- Please ask your timing team to ensure that competitors have a date of birth entered as without that the competitor will not be allocated to a class. In addition, if a competitor has a second run it should be marked as non-competitive as without that there is no way to identify which result should stand.
